

Michael Petos Haraeb

Namibian, Single, 32 years

Rio de Janeiro – RJ

Telephone: (21) 969920545 / E-mail: haraebm@gmail.com

OBJETIVO

Python Developer

TECHNOLOGIES

- Python
- Selenium and BeautifulSoup – web scrapping / web crawling
- MySQL and SQLite databases
- APIs with Flask and Flask RESTful
- Bootstrap
- HTML5
- CSS3
- Version control with GitHub
- Currently studying Django

EXPERIENCES

Python Back-end (Automation and Web-scraping) -Freelancer - Upwork (03/2021 - Recent)

- Automated web-app testing with Selenium Web driver
- Developed web-crawlers to track price changes on the Amazon website, that sends an email to the client when the price reaches a favorable level.
- Created various API's using Flask and Flask-RESTful
- Criei um aplicativo que armazena dados em diferentes tabelas no Postgresql usando JOINS, com Flask e Psycopg2.
- Created an application that filters through emails and only moves emails with "Attachments" to a different folder using the IMAP library and Imap-tools.
- Created an application that sends a text message informing the client if it is going to rain on that day. I used the Twilio API for sending text messages.

LANGUAGES

- Advanced English
- Intermediate Portuguese
